*Aligned with the New York State Teaching Standards*

**Standard 1: Knowledge of Students and Student learning**

**Teachers acquire knowledge of each student and demonstrate knowledge of student development and learning to promote achievement for all students.**

*It is not enough for teachers to know and understand childhood or adolescent developmental norms. Teachers must also know their students: their strengths and weaknesses, their interests, their readiness levels and skill sets, and the outside influences that affect their learning: family dynamics, cultural customs, and socio-economic status. Furthermore, teachers must demonstrate this knowledge and understanding and also incorporate appropriate 21st Century Skills in the planning and preparation of their lessons.*

**Element I.1: Teachers demonstrate knowledge of child and adolescent development, including students' cognitive, language, social, emotional, and physical developmental levels.**

**NYSED Indicators:** *Describe orally and in writing an understanding of the developmental characteristics of their students; Create developmentally appropriate lessons that address student learning differences and needs; Teachers implement lessons and modify instruction based upon student developmental needs.*

<b>Indicators</b>	<b>Ineffective</b>	<b>Developing</b>	<b>Effective</b>	<b>Highly Effective</b>
A. <i>Describes and plans using knowledge of developmental characteristics of students</i>	Teacher is unable to describe orally or apply in planning, the developmental characteristics of the age group.	Teacher describes orally and applies in planning, some knowledge of the developmental characteristics of the age group.	Teacher describes orally and applies in planning, an accurate knowledge of the typical developmental characteristics of the age group, as well as exceptions to the general patterns.	In addition to accurate knowledge of the typical developmental characteristics of the age group, and exceptions to the general patterns, teacher describes orally and applies in planning the extent to which individual students follow the general patterns and how 21st Century Skills fit into this knowledge base.

**Standard II: Knowledge of Content and Instructional Planning**

**Teachers know the content they are responsible for teaching and plan instruction that ensures growth and achievement for all students.**

*A teacher translates instructional outcomes into learning experiences for students through the design of instruction. Even in classrooms where students assume considerable responsibility for their learning, teachers must design instruction that is coherent and balanced between careful planning and flexibility in execution. Teachers design instruction that reflects the needs of 21<sup>st</sup> century learners and include opportunities to collaborate, innovate, create and solve problems using high-level cognitive processes and communication tools and media.*

**Element II.1 Teachers demonstrate knowledge of the content they teach, including relationships among central concepts, tools of inquiry, [and] structures and current developments within their discipline(s).**

**NYSED Indicators:** *Incorporate key concepts during instruction through the use of multiple representations and explanations. Engage students to use key disciplinary language with comprehension through instruction. Demonstrate the effective use of current developments in pedagogy and content. Design learning experiences that foster student understanding of key disciplinary themes. Demonstrate knowledge of the learning standards and their application throughout their instruction and practice.*

**Standard IV: Learning Environment**

**Teachers work with all students to create a dynamic learning environment that supports achievement and growth.**

*The classroom environment is a critical aspect of a teacher's skill in promoting learning. Students can't concentrate on academic content if they don't feel comfortable in the classroom. If the atmosphere is negative, if students fear ridicule, if the environment is chaotic, no one – neither students nor teacher – can focus on learning. Teachers who excel in Standard 4 create an atmosphere of excitement about the importance of learning and the significance of the content. Skills in Standard 4 are demonstrated through classroom interactions and observations.*

**Element IV.1: Teachers create a mutually respectful, safe, and supportive learning environment that is inclusive of every student.**

**NYSED Indicators:** *Caring and respectful in interactions with students. Embrace student diversity as an asset in the classroom. Recognize and reinforce positive interactions among students. Create a climate of acceptance and respect. Create an environment where students feel a sense of responsibility to one another.*

**Standard V: Assessment for Student Learning**

**Teachers use multiple measures to assess and document student growth, evaluate instructional effectiveness, and modify instruction.**

*Assessment is an integral part of the instructional process. The design of instruction must account for a range of assessment strategies: formative and summative, formal and informal. High quality assessment practice makes students fully aware of criteria and performance standards, informs teacher's instructional decisions, and leverages both teacher and student feedback. Further, these practices also incorporate student self-assessment and teacher analysis and reflection to inform instruction.*
