Handout 2: Data Set Guiding Questions

Purpose: To be used with Section IV, Step 2.

- Example

Data Set 1:
- Mentor Survey data
- Mentoring & Induction Matrix

1. Guiding questions: What are the data telling us?
   a. Mentor Survey data
      i. In which areas do mentors feel least confident?
      ii. What are the top three areas in which mentors would like more training and support?
      iii. Based on self-efficacy responses, what is an area in which mentors could use more training and support?
      iv. What do the majority of mentors say they need more of in order to adequately meet the needs of teachers?
   b. Mentoring & Induction Matrix
      i. What mentor selection criteria and processes are schools using? Is there consistent use of selection processes that identify effective teachers with mentor-like qualities?
      ii. How are schools using working conditions data to inform the mentoring and induction program?
